

The profile of the National Committee of Malaysia

TECHNICAL DOMAINS

MEMBERSHIP BENEFITS

THE WORLD OF CIGRE

JOINING

Welcome

CIGRE is the foremost global community for the collaborative development and sharing of power system expertise. The community features thousands of professionals from over 90 countries and 1250 member organisations, including some of the world's leading experts. At its heart are CIGRE's 59 National Committees offering diverse technical perspectives and expertise from every corner of the globe.

Over the last 100 years the work of CIGRE, through its collaborative knowledge programme and publications, has contributed to many of the key technical cornerstones of the modern power system.

CIGRE Malaysia (formerly known as Malaysian National Committee of CIGRE) established in 1996, is the National Committee and local representative organisation of CIGRE in Malaysia. We are proud to be part of CIGRE's global knowledge programme of work.

We are committed to understanding our local conditions and feeding that into the technical programme to find solutions for our local challenges, as well as contribute to the wider community.

We also foster our local talent and help our members to prepare for the future and inform their decision making with diverse perspectives from the CIGRE world.

If you want to join and participate in CIGRE, source key information, or solve technical challenges, read on to find out more. We welcome your involvement!
